Create a more **inclusive, fair, sustainable** FinTech ecosystem and a FinTech development ecosystem in line with **international** standards.

Implementation Strategies

Optimizing
Legislation

Enhancing
Resources

4
Strategies

Expanding
Technologies

Increasing
Inclusiveness

Implementation Aspects & Measures

Aspect 1: Optimizing FinTech legislation and policies

- Feasibility study of the amendment of the "Financial Technology Development and Innovative Experimentation Act"
- Establishment of the "FinTech Regulatory Adjustment Platform"
- Enhance data sharing
- Establishment of guidelines for the financial industry's use of AI

Aspect 2: Enhancing supporting resources and talent development

- Diversify funding for FinTech innovation
- Promote advanced programs for FinTechSpace
- Train future FinTech talents
- Enhance international cooperation and overseas business development

Implementation Aspects & Measures

Aspect 3: Expanding FinTech technologies and applications

- Launch the Financial FIDO V2 project
- Continue to promote open finance
- Promote green (sustainable) FinTech
- Promoting digitalization of corporate financial services

Aspect 4: Increasing financial inclusion and digital finance adoption

- Launch of phase 2 RegTech
- Implement the "Accessible Digital Finance Promotion Program"
- Others [including ongoing items of the "Fintech Development Roadmap(1.0) "]
